i CiteScore metrics for journals and serials

CiteScore metrics from Scopus are:

- Comprehensive
- Transparent
- Current and free

Use this page to find a source and view associated metrics. Use qualitative as well as quantitative metrics when presenting your research impact. Always use more than one quantitative metric. Learn more about CiteScore.

The diagram illustrates the CiteScore calculation process. It shows a timeline from 2014 to 2019. A bracket labeled 'Documents from 3 years' spans the years 2014, 2015, and 2016. A vertical line labeled 'Citations in 2018' points to the year 2018. This indicates that the CiteScore for a given year is based on the number of documents published in the three preceding years and the number of citations those documents received in the current year.
